**DR. BRILL + DR. STEINMANN**  
 INSTITUT FÜR HYGIENE UND MIKROBIOLOGIE

Dr. Brill + Partner GmbH · Stephanstr. 31 · DE-22339 Hamburg

Contact: [Redacted] E-mail: [Redacted]  
 Phone: [Redacted] Fax: [Redacted]

Date: 18/02/2018

Expert statement: Virus-inactivating properties (virucidal activity against enveloped viruses) of [Redacted] according to EN 14476:2013+A1:2015 under clean conditions.

To whom so ever it may concern

The product [Redacted] manufactured by [Redacted] was tested for checking its virucidal activity against enveloped viruses at our laboratory. The results are shown in test report E10204892.2 of Dr. Brill + Partner GmbH (accredited by Deutsche Akkreditierungsstelle GmbH DAAS according to DIN EN ISO/IEC 17025:2018, registration certificate no D-PL-13412-01-02) dated 19/12/2017. A sufficient activity against modified vesicular stomatitis virus Ankara (MVA) was found testing the undiluted test product with an exposure time of 2 minutes under clean conditions (0.3 g/l BSA). Details are as given below:

**Test Method:** EN 14476:2013+A1:2015. Chemical disinfectants and antiseptics – Quantitative suspension test for the evaluation of virucidal activity in the medical area- Test method and requirements (Phase 2) Step 1)

**Composition:** Active compounds- Chlorhexidine Gluconate Solution BP 2.5 % v/v equivalent to Chlorhexidine Gluconate 0.5 % w/v, Ethanol 70 % v/v

**Application:** Alcohol Dry Hand Rub for Hand Hygiene

The product [Redacted] proves efficacy against vesicular stomatitis virus which proves efficacy against all enveloped viruses including those listed below:

Hepatitis C Virus (HCV), Human Immunodeficiency Virus (HIV), Human T Cell Leukemia Virus (HTLV), Influenza Virus (including human, avian and porcine influenza viruses), Corona Virus (including SARS, MERS, Novel coronavirus (2019-nCoV)), Herpesviridae, HIViridae (which include Ebola virus), Haemorrhagic, Rubella Virus, Rabies Virus, Measles Virus and Parvovirus.

Kind regards,  
 Dr. Brill + Partner GmbH
